CELEBRATING 
families 
ANNUAL REPORT 2018
I’m continually amazed by the strength and resilience of families. Their courage, and your partnership, contributed to an incredible year of successes.

I see that success in the faces of the beautiful children and families on the pages of this Annual Report. It’s in the joyful expression of a child welcomed into his new adoptive family. It’s in the smile of a proud college graduate who left behind the poverty that stacked every odd against her. And it’s in the arms of the mother who fought to survive and prevented her baby from becoming an orphan.

On a broader scale, you helped us continue to improve healthcare in Ethiopia and stay laser-focused on the importance of maternal health. You also helped children with special needs find families whose love could overcome any challenge. And you provided a safe, stable path forward for people living in poverty as well as highly vulnerable older orphans.

Because of you, families found the strength to rewrite their own stories.

Every one of the successes we celebrate is built on your compassion. You helped children and families tap into their own strength so they could build their future — a better future. That’s why, as we celebrate a year of success, we also celebrate you. I hope as you read this report that you feel the same joy and love these families now know. Because none of it would be possible without you.
Celebrating Your Impact

- 792 Children in orphanages given love and care
- 78 Children adopted into loving families
- 400 Families helped before, during, and after adoption

- 62,865 Families whose lives were changed through your support

- 3,724 Sponsored children and families
- 57,864 Children and families strengthened through WHFC health programs
It was a year of powerful transformations, when families achieved self-sufficiency more quickly, thanks to a firm commitment to their own success and more effective interventions. That’s how it was for Kidist. Her parents passed away, and she and her siblings had to drop out of school to survive. An empowerment grant provided a lifeline: seed money to help them prepare a room to rent in their home. It was a way forward, out of the darkness. Because of your support, the three siblings are back in school and on stable footing. We celebrate their resilient smiles, restored stability, and brighter futures. Because keeping families strong creates endless possibilities.

Education is a proven path out of poverty, allowing a child to work toward a better future. That’s why we continued to help desperately poor children like Saloni. Your sponsorship provided critical educational support that enabled her to beat the odds — going from destitution to college graduation. Now, Saloni is pursuing her MBA, an achievement she’s celebrating. And so are we, thanks to your belief that every child deserves a chance to succeed.

Medical Missions: Saving Lives

Your support has helped transform healthcare in Ethiopia. Last year thanks to you, we doubled the number of families we helped. Together, we can continue this significant progress, saving even more moms and keeping more families intact.
We celebrated the resilience and courage of traumatized children who were welcomed into the loving, healing care of our Guatemalan hogars. Your support helped keep the doors of these homes open, providing safety and family for children who have suffered unspeakable heartbreak — like Fidelia. She was beaten and forced to beg on the streets to fund her parents’ addiction. But with attention and care, she recovered from her abuse and always believed she’d find a new family. Thanks to you, she finally did.

2018 marks our 10th year of helping older orphans who are at a critical point in their lives. Our partnership with Insula Sperantelor (Universe of Hope) in Moldova offers vocational training for children who risk becoming trapped in human trafficking or prostitution. In a decade of success, this proven program has helped train more than 100 vulnerable youth and place them in high-demand professions — giving them both self-sufficiency and newfound hope.

Celebrating 5 Years of “Granny’s” Love

The Granny program is a miracle for our children. The blossoms of life are brighter, the songs are more cheerful, thanks to all that the Grannies have given these children from the bottom of their hearts and souls.”

– Maria Jekyu, Orphanage Director, Chisinau Moldova
One of our main goals is for children to live in a family. It makes me very happy to know Fidelia is safe.”

— Dinora Palacios, Director of Hogar Luz de Maria
The power of love and your steadfast support created new families for a diverse range of orphaned children — like Ian, who has an upper limb difference. As other children were adopted from his orphanage in China, Ian waited and wondered when it would be his turn. Or if he’d ever find a family at all.

On the other side of the world, Jennifer and Seth knew how much love they could give a child with special needs. When they saw Ian’s photo and story, their hearts grew even larger. Ian was meant to be a part of their family.

In that moment, his entire life changed. It’s a moment you made possible — a moment worth celebrating for the new memories Ian would form and the unconditional love he would come to know.

“Ian was a little boy with a limb difference across the world in need of a family,” Jennifer explains. And now, thanks to your compassion, he has one.
Our dream included finding a meaningful way to share our life, our children, our home, and our love.”

— Jennifer, adoptive mom to Ian
The right family is a loving one, and you connected children with families who have an unyielding capacity to love. Jason and Jonathan’s story is one inspiring example. Fueled by a simple desire to give a home to a child, they turned to adoption and forged a bond with their son’s birth parents before he was even born. When they brought Porter home, he was just 12 days old.

Now a toddler, Porter is curious and explores everything around him. His dads are celebrating every magical moment together, grateful for the gift of family that wouldn’t have been possible without you.

“Every day is incredible with him, getting to experience him learning about the world.”
—Jason, adoptive dad to Porter
Adoptive and birth families continued to connect through their shared love of a child. Your generosity allowed adopted children and their families to take a journey of discovery through Zimdina, our unique, flagship travel-back program in Ethiopia. Yohannes and Anemo, two adopted teenaged boys, traveled back with their adoptive families from California to get to know their Ethiopian birth families.

This past year, more children discovered the joy of knowing where they came from and forged new connections across continents. And more adoptive and birth families shared memories and cultures, not only celebrating their differences but also making a difference for the child they love — all thanks to your support.

Be open to wonderful surprises."
— Suzanne, adoptive mom to Anemo
